FOREWORD

In this volume is a complete list of all taxable property in Hoboken. The ssessed value of the land, improvements and personal property is given and he total taxes levied against each parcel. There is also a set of tables giving reasonably clear idea of the financial condition of the City of Hoboken. To he taxpayer who is concerned not only with the fact that taxes are high but who vants to know where they are high and why they are high, these tables should e especially valuable. Short explanations are given to indicate the significance f the data in the tables. These tables relative to the municipal finances of Hoboken have been prepared by the Bureau of Municipal Research of the Hoboken Chamber of Commerce from official sources. The following tables re listed:—

FINANCIAL DATA RELATIVE TO THE CITY OF HOBOKEN, N. J.

TABLE No. 1

Land values, particularly on Washington Street, were sharply increased on the 1926 tax roll, being over 11% larger than they were in 1925. There was no actual increase on improvement values, the $597,800.00 in the table being the value of the new buildings erected during 1925, minus fire losses.

The increases on personal and second class railroad property are slight. A total of about four and a half million dollars were added to the Hoboken ratables in 1926.

Attention is called to increases in properties exempted from taxation and the resulting burden on taxable property. At present 1-5 of the total ratables in Hoboken are tax exempt. If half of this property, which represents the pier valuation only, were in the ratables, the sum of $590,075.00 would be paid in taxes at the 1926 rate. The total amount Hoboken must raise in taxes for all purposes during 1926 is $4,645,766.11. It is easy to see what a substantial relief the present taxpayers would secure if the $590,075.00 of this amount were paid by pier property that is now exempt.

TABLE No. 2

In 1917–18 land was valued at $26,435,800.00 and in 1926 at $37,518,600.00 or an increase in ten years of $11,082,600.00—about 44%. Land values remained almost stationary between 1922 and 1926.

Buildings during this period show an increased valuation of $5,031,300 or about 14%. Building values show a slow but steady increase.

Second class Railroad property shows a steady rise in valuation having assessments 54% higher than those of 1917–18.

Personal property shows considerable fluctuation. However, in the last five years the valuations have been much the same, showing an actual decrease. In 1917–18 personal property was valued at $8,373,500.00 and in 1926 at $8,431,700.00 or an increase of only 0.7%.

The total ratables in 1917–18 were valued at $79,745,489.00 and in 1926 at $100,089,371 or an increase of over 25%.

Summarizing we find the relative percent of increase during these ten years to be as follows·

TABLE No. 4

The table below gives a clear idea of the increase in the cost of the various units of government during the last ten years, which the Hoboken taxpayer helps to defray. Where is the greatest increase in costs occuring? In 1917, 66% of the total taxes raised for all purposes went to pay municipal and school costs in Hoboken and in 1926, 74% of the total taxes were appropriated for these purposes. The rest of the tax money was for county and state purposes. Again, in 1917 the tax rate per $1,000 of ratables for municipal and school costs was $14.80 and in 1926—$34.50, a net increase of 138%. Similarly there was an increase in the cost of the county government during this period of 43½%, while appropriations for state expenses rose 26%. This table makes it evident that during this ten year period, costs for municipal and school purposes have increased over three times as fast as county costs, and five times as fast as state costs.

TABLE No. 5

Two different tax rates for Hoboken are prepared each year, although the Old Hoboken tax rate is the official rate. In 1874 the Weehawken addition North of Twelfth Street was incorporated with Old Hoboken. There still remain refunded bond issues outstanding carrying charges incurred by the city prior to 1874. The "C" and "D" improvement bonds, refunded November 15, 1901, become due November 15, 1931. The annual sinking fund and interest charges on these bonds amount to $10,656.77, and the principal of this issue is $196,000. The O'Neil Judgment bonds were issued May 1, 1908 and become due May 1, 1938. The principal of this issue is $21,500 and the annual sinking fund and interest charges are $1,491.48. The listing of these charges against the property in Old Hoboken accounts for the two tax rates.

TABLE No. 6

A net increase of exactly 100% in the Hoboken tax rate took place between 1917 and 1926, while there was a net increase of 138% in the tax rate for local government costs, school and city. (See tables No. 4 and 5.) Naturally a comparison between the tax rate in dollars and cents in 1917 and in 1926 would need readjusting to allow for the decreased buying power of the dollar. When the cost of living rose, the salaries of the city employees were increased. The table below is a cost of living index showing what the buying power of a dollar has been and is as compared to 1913. In 1915 the per capita cost for local goverment, school and city, was $15.54 and in 1926—$50.59. However, in 1926 the dollar used to pay for living costs was worth only $.67 as compared to the 1913 dollar. Making this adjustment, the actual per capita cost for the schools and the city government in 1926 was $33.89 per capita. Compare this with the adjusted cost in 1915 of $15.39 per capita. This shows that there has been a **net** increase in the cost of local government in Hoboken during the last 12 years of $17.50 per capita or 114%.

(U. S. Department of Labor Cost of Living Index used from 1915 to 1925 and National Industrial Conference Board Index for 1925 and 1926).

REDUCTIONS MADE IN 1925 AND 1926 SCHOOL BUDGETS

The Hoboken Board of Education made a net decrease in the proposed school budget for 1925 of $26,550.00. The net amount of money to be raised by taxation was less by $25,477.41 for 1925 than for 1924. These reductions were made in the following items—Teaching Personnel, Fuel, Medical Inspection, Continuation, Vocational and Foreign Evening Schools, and Light, Water and Power.

Mandatory salary increases for 1926 totaled over $43,000. Net decreases in other items amounted to $48,985.00. These substantial reductions as compared to the 1925 budget were made in the following appropriations: Repairs, Text Books, Insurance, Instructional Supplies, Educational Equipment, Vocational School Costs and other minor supply items. The Board of Education, in harmony with the suggestions of the Municipal Research Bureau of the Hoboken Chamber of Commerce has made net reductions in the total school budgets for 1925 and 1926 of $75,535.

TO-DAY

Is the best time to invest in our Guaranteed First Mortgages and Certificates because your interest at 5½ % begins as soon as we receive your remittance.

Many investors imagine that it is not worth the trouble to invest small amounts like $100.

But with our First Mortgage Participation Certificates—in any amounts from $100.00 up—the small investment yields the same return (5½ %) as the larger one.

WHAT IS THE HOBOKEN CHAMBER *of* COMMERCE?

It is an organization formed for the purpose of doing those things for the civic, commercial and industrial advancement of Hoboken which had previous to its organization long been neglected, due to the fact that everybody's business was nobody's business. It comprehends practically all of the more important matters affecting this community, and through its Committees and Departments, proposals for betterment can be carefully analysed, the facts ascertained, and a course of action decided upon, which will benefit the community.

Every citizen of Hoboken, who believes in the future of this City, is cordially invited to join the Chamber and and help in the unselfish effort to make Hoboken a better place in which to live and in which to do business.
